The Norman Wettenhall Foundation – Small Environmental Grant Scheme

The Small Environmental Grant Scheme will provide support for people undertaking projects that will make a positive difference to the natural living environment, in land, sea or air, rural or urban. We support grassroots organisations and individuals, and academics who are working with on-ground community groups.

You submit an Expression of Interest (EOI) and if it is accepted, then you'll be supplied with a closing date for submitting your full application - make sure to get your EOI submitted as close to the opening date as possible.

There are opening dates for these grant rounds – this is when the online application form appears 'live' on the website.

HomeStart First Home Grant

Build your first home from \$3,000. Instead of buying a block of land and then finding a builder to build your home, a house and land package bundles it all together. This means you can choose one of many standard or customised home designs at the same time you purchase the land.

House and Land Packages can be a good way to reduce upfront costs because:

- You only pay stamp duty on the land value and not the house
- HomeStart can lend up to 97% of the value of the house and land package to those who are eligible.
- First home buyers could also be eligible for a \$15,000 First Home Owner Grant to put towards your deposit, fees and charges
- Pay no loan repayments for 9 months or until your home is built, whichever comes first
- Our participating builders will commit to a fixed price and construction period
- HomeStart doesn't charge a Lender's Mortgage Insurance (LMI) and the Loan Provision Charge (LPC) is significantly less than LMI for most borrowers

TELL US YOUR STORY

If your organisation has been the recipient of a grant (congratulations!) we would love to hear from you and celebrate in your success. Feel free to send us a photo and a short description of the completed project so we can feature it in this newsletter or on Dan's Facebook page.

As well as highlighting successful grant recipients we hope that by showing the outcomes of grant funding, it will encourage more groups to get on board, apply and make their communities better and brighter.

So big or little – we would love to see how the grants are working for your community.
